NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE, FOR THE WEEK ENDING SATURDAY THE 15TH APRIL 1922.

A total of twenty attacks with eighteen deaths from plague was returned for the State as a whole, the districts affected being Bangalore, Kolar, Mysore and Kadur. The Cities of Bangalore and Mysore returned a clean bill of health during the week.

2. No cases of cholera were reported.

3. The returns for influenza were also "nil", except for a fatal case in the City of Bangalore.

4. The total mortality for the Bangalore City for the week amounted to 86, representing a calculated annual ratio of 37·44, against the average ratio of 34·83. Classified according to causes, the deaths numbered 33 under respiratory diseases, 8 under fevers, 4 under dropsy, 2 under diarrhœa and dysentery and 39 under all other causes.

5. The total mortality for the Mysore City, amounted to 24, representing a calculated annual ratio of 14·86 against the average ratio of 33·48. The causes of deaths were dysentery 1, respiratory diseases 5, fevers 5, dropsy 2, and all other causes 11.

6. Sporadic cases of relapsing fever were reported from Kolar, Srinivaspur and Hoskote Taluks.

A. K. PANI,
Sanitary Commissioner.
